

## HIPAA Compliance Training

### Reliable, ongoing, and cost-effective HIPAA compliance training

The first-ever federal privacy standards to protect patients' medical records and other health information provided to health plans, doctors, hospitals and other health care providers took effect on April 14, 2003.

The Health Insurance Portability and Accountability Act of 1996

(HIPAA) has created a set of patient protections and a new set of demands on health plans and providers – including the regulated requirement to train their employees in their privacy procedures and the designation of an individual to be responsible for ensuring the procedures are followed.

### Reliable, ongoing, and cost-effective HIPAA compliance training

While compliance with HIPAA regulations is a daunting task for healthcare, OTC can provide a cost-effective and targeted HIPAA training solution, complete with tracking and reporting capabilities.

Online Training Center (OTC) allows health plans, hospitals, and other healthcare providers to provide comprehensive e-learning courses to address the ongoing need for HIPAA security and privacy training.

## HIPAA Compliance Training - Classes:

### HIPAA Privacy Primer

This program explains the HIPAA regulations pertaining to the privacy of personal healthcare information. It takes into account the significant modifications to these regulations published in August 2002.

### HIPAA Security Primer

This program explains the HIPAA regulations pertaining to the security of personal healthcare information. The topics covered in the program include – An overview of the HIPAA Security Rule, Covered entities, Covered transactions, Protected health information (PHI), Administrative safeguards, Physical safeguards, Technical safeguards, and Compliance and enforcement

## HIPAA Compliance Program by WeComply

Since their founding in November 1999, WeComply has established itself as a leading provider of online compliance training. Our innovative uses of technology – providing web-based customizability, easy-access training games, AICC compliance, and now PDA accessibility – put us at the leading edge of the e-learning industry.
